Richwood

Richwood, July 20.- Services at Wesley Chapel at 3 P. M. Sunday.

Mrs. Effie Stoneburner, of Washington, D. C., was a visitor with Mr. and Mrs. G. T. Watt and other friends last week.

Mr. and Mrs. Lynn Powell, of Roanoke are visiting with Mrs Annie Powell and other relatives during the week.

Mrs. Rosa Shiplett, of Washington, D. C. and Mrs. W O. Campbell, of Lynchburg were visitors of Mr. and Mrs. J. T. Brown and other friends last week.

Mr. and Mrs. D. A. Pugh and Mr. and Mrs. Jack Hamilton and son, Jackie visited Mr. and Mrs. G. T. . . at Rocks Sunday.

Mr. and Mrs. Clarence Tester and family have moved in with Mr. and Mrs. Nathan Powell at the old Powell homestead.

Mr. and Mrs. Chas. Cordell and Mr. and Mrs. Russell Cordell were Sunday guests of Sam Cordell.

Little Miss Sally Guinn, of Elizabethian, Tenn. is spending the summer with her grandparents,Mr. and Mrs. Sam Cordell and other relatives.

Mr. and Mrs. Gilbert Powell, of Reedsville, N. C. were visitors on Monday with Mrs. Annie Powell, and other relatives.

Mrs. Cam Cordell is visiting with a sick daughter, Mrs. Mary Guy, of Elizabethian, Tenn.

Members of the Central Baptist Church are cutting logs for the lumber to add a Sunday School and other rooms to the church.

Know Types of Aluminum To Make Better Purchase

Aluminum has proved its durability and usefulness in the kitchen, according to Mrs. Glenna Lamkin, home economics department, University of Illinois college of agriculture. Knowing the types of aluminum will make shopping for it easier and more satisfactory.

Aluminum is combined with other metals to make it hard enough to resist warping and bending. Utensils may be of cast or stamped aluminum.

Cast aluminum is used for sturdy top-of-stove pans as well as roasters and casseroles for oven cookery. These are made by pouring metal into molds designed for pans with thick bottoms and sides; they taper to reduced thickness to give even heat distribution. Chrome-iron and nickel are sometimes used as surface finish for these pans.

Stamped ware is made by placing sheets of aluminum of desired guage in heavy presses which stamp out the utensils. Heavier gauge pans are generally a better choice, as they resist warping. Light-weight utensils bend and warp easily.

Beacon Fires, First Lighthouses

Priests maintained beacon fires as the earliest lighthouses of record. Lighthouse towers were first built by the Libyans and Cushites in Lower Egypt. Leaches, a Greek poet who lived around 660 B. C., mentions a lighthouse at Sigeum, now Cape Inchisari, in the Troad (northwestern Asia Minor) which presumably was the first lighthouse regularly maintained to guide ships. It was, of course, not a tower.

Beverly Hills

Beverly Hills, July 20.- Miss Jackie Coleman and Miss Renee Booker have returned home after a week's visit in Newport News with relatives.

Miss Katty Christian, of Richmond has arrived to spend the summer with her grandparents, Mr. and Mrs. John R. Booker.

Betty Brown, of Lynchburg, is spending sometime with Mr. and Mrs. John Spiggle.

Circle 3 of the Liberty Chapel Missionary Society met with Mrs. Allen Carter this week.

Miss Riley Moore has returned to Lynchburg after spending her vacation in her father's home.

Mr. Carrington Carter, who has been ill for some time, was visited by many friends and neighbors on Sunday.

Mr. and Mrs. Eugene Dickerson, of Lynchburg spent the week-end with Mr. and Mrs. Allen Carter.

Atom-Charged Elements Aid Doctors' Diagnosis

British medical men are soon to call on atom aid for important new experiments in diagnosing serious diseases.

A large atomic pile at Harwell Research station, Berkshire, will start operating shortly. It will produce enough atomic by-products for Britain's own immediate needs and a possible surplus for export to the continent.

The "atomic doctors" will work in close collaboration with the American specialists who already have atomic by-products in use.

"The Gleep", a small-scale pile at Harwell, is already "cooking" 160 samples of radio-active chemicals a month—carbon, sodium, potassium, iodine, gold, silver and so on. Increased quantities from the new pile will meet the demands of research workers and doctors all over Britain.

These radio-active elements are the trail-blazers of great new discoveries in medical science. When fed into diseased tissues of the human body, they act like radium. They can be traced through the most complicated processes or into the most inaccessible parts of the body.

Remarkable results of scientific diagnosis by atom-charged elements have already been had. In cases of pregnancy, for instance, surgeons are never sure how far the disease has spread nor how much of the limb ought to be amputated. Radio-active chemicals "light up" the gangrenous tissues and they can operate accurately.

Potato Insect Control

Control of Colorado potato beetles, flea beetles, potato leafhoppers, blister beetles, psyllids, and many other potato insects is possible with a three per cent DDT dust in a sulphur or pyrophyllite base or with a 50 per cent wettable DDT powder. The treatment should be applied when the insects appear and at two-week intervals thereafter if the infestations persist. Three or four applications may be needed to get complete control of the insects. Extension Entomologist Jack Lomax suggests applying the DDT dust (three per cent strength) at the rate of 25 to 35 pounds per acre of potatoes. Two pounds of 50 per cent wettable DDT powder in 100 gallons of water will do the same job for an acre.

Invite Farmers To Buckingham

Three special outdoor meetings have been arranged by Virginia Forests, Inc., for the week of July 26, 1948. One is planned for the coastal plain, one for the Piedmont and one for the mountains, so that desirable forestry practices for all sections of Virginia may be viewed and discussed. The entire period will be known as "Forestry Look-See Week" and will feature the awarding of "Tree Farm" certificates to outstanding tree farmers of the state.

The meeting in this section, cosponsored by the Buckingham Rural Club, will take place at the Lee Experiment Forest in Buckingham County, Wednesday, July 29, with the Burrus Land and Lumber Company as host.

This meeting will begin at about 10:00 A. M. and will last not later than 2:30 P. M. Luncheon will be provided by the host company.

It is hoped that those farmers interested in the preservation of their woods will attend and bring with them anyone interested.

—R. B. Hudgins, County Agent.

First Uniform for British

Prior to 1748, British officers dressed as they chose, styles and colors in each ship depending on the captain's taste. A meeting of the Navy club at a coffee house in London, proposed a uniform for officers, already the rule in contemporary navies, and in due course the matter came before the king. Senior officers were invited to send in their ideas of patterns and colors. As the national colors at that time were blue, it seemed likely that these would be chosen. But blue and white also had strong support, and George II finally picked them after seeing the Duchess of Bedford in a riding habit of these colors. The order for the first naval uniform followed from the admiralty in April, 1748.

School Aid for Navajos

An American Indian child aid project will be started with help to schools on the Navajo reservation by the Save-the-Children federation, of New York, with the cooperation of the bureau of Indian affairs. The project will take the form of a school sponsorship plan, along the same lines as that of the American Rural Child Service operated by the federation in backward areas of eight states. The Navajo Indians, whose reservation covers parts of Arizona, New Mexico and Utah, have recently been shown to be one of the most needy of all population groups. There are 50 day schools and eight boarding schools on the reservation. Many of the children live in crude shacks and come from families whose average income is less than $400 a year.

U. S. Farm Workers

U. S. land army of farmers, working members of their families, and hired helpers totaled 10,563,000 on May 1, 1948. Total U. S. population is now about 140 million, so each farm worker must feed himself and 12 others. U. S. residents get nothing any surplus for export. The number of farm workers on May 1 was about 100,000 greater than on the same date in 1947.

Farm Topics

Elevator Will Serve Many Uses on Farm

Conveyors Eliminate 'Back-Breaking' Chores

Elevators are becoming as common on farms as they are in city department stores. They are, however, of a different kind—and not used for the same purposes. Unless, of course, city stores have started conveying farm produce from the sidewalk into ninth or tenth story "mows."

Farmers began to think seriously about elevators and conveyors during the last war, and they've been doing something about them ever since. Many built their own equipment. Others bought commercial models. The source matters little—it's what they can do that counts most.

All-purpose elevators, either portable or stationary, are capable of elevating to desired heights baled, chopped or loose hay, ear corn,

root crops, shelled corn, ground grain and forage. Chopped hay is being elevated in the accompanying illustration.

They do these "back-breaking" chores easily, and all day long without complaining. However, before you build or buy an elevator be sure you know for what it is to be used. That knowledge will determine the size and type best suited for your needs.

Costs of operation vary somewhat, but, in general, farmers can figure on it taking from 1/10 to five kilowatt hours of power to elevate 1,000 bushels of grain with an elevator, run by a five horsepower motor. On this basis, approximately 500 bushels of grain can be elevated for less than five cents worth of electricity.

Risky to Sit with Driver

Safest position in a car is in the driver's seat behind the protection of the steering wheel, and the most dangerous seat is the one next to the driver, according to Dr. Chiris L. Straith, chief of plastic surgery at Harper hospital, Detroit. He stated in a report in the American Medical association journal that in a study of 50 patients who suffered facial injuries in automobile accidents 70 per cent of the patients were young women who had been sitting next to the driver. More than half of those front seat patients suffered head and face injuries.

Pamplin

Pamplin, July 19.- Week- end guests in the home of Mr. and Mrs. Wiley Richardson were Mr. and Mrs. J. A. Fore and son, Gilbert, and Miss Jane Yeatts, of Petersburg, and Mr. and Mrs. Herbert Richardson, of Appomattox.

Week-end guests in the home of Mr. and Mrs. W. S. Mann were Mr. and Mrs. Jacob Mann and George W. Mann, of Richmond.

Miss Peggy Mann, Morton Mann and Wilbur Gene St. John are attending the State Baptist Training Union Convention at Massanetta Springs.

Mrs. Bruce Bateman, Mr. and Mrs. A. J. Ponton Jr. and family, Mr. and Mrs. Lee Bower and family, of Newport News, and Mrs. J. S. Smith and daughter, of Pittsylvania County were guests of Dr. and Mrs. C. H. McCall last week.

Miss Flora Belle Williams is attending an elementary principal's conference at Emory and Henry College.

Mrs. T. E. Simpson, of Maryland is guest in the home of her daughter, Mrs. Richard Williams.

The Rev. J. S. Moore spent last week at Massanetta Springs.

Recent guests in the home of the Rev. and Mrs. J. S. Moore were the Rev. and Mrs. L. F. Paulette, of Smithfield and Mrs. R. L. Saunders, of Connecticutt.

Mr. and Mrs. A. R Southall and family were recent guests in the home of Mrs. Southall's mother, Mrs. W. Watson, of Chatham.

Earl Wood was a recent guest of his sister, Mrs. J. K. Jarrod, of Norfolk.

Miss June Clark was the week-end guest of Mrs. P. E. Trower, of Norfolk.

Mrs. H. A. Williams and daughter, and Miss Flora Belle Williams were week-end guests of Mr. and Mrs. W. B. Williams, of Richmond.

Mrs. R. C. Hinman and Mrs. W. E. King and son, Stephen Douglas, of Suffolk are guests in the home of the former's mother, Mrs. L. M. Southall.

L. H. Fears, of Lynchburg, was a recent visitor here.

Stonewall

Stonewall, July 19.- It is so sorry to hear that Carson is very ill and burg General Hospital is that she she soon will back home again.

The revival meeting at Bethel Church night. Everybody is tend.

Mrs. Anna Lee with her sister, Mrs.

Mr. and Mrs. Clark family spent the week and Mrs. Hewlette

Mr. and Mrs. Lyle son, of Norfolk, are vacation with his sis na Harding.

Wayne Lee spent his grandparents, Wash Wheeler at

FATHER DARKLEAF

By The Editor

Circuit Court Judge Charles F. P. Crawford qualified as an expert and talented gardner. Yesterday he visited the Times-Virginian office one of his "smaller" cucumbers. It weighed two and three-quarters pounds, was 11¾ inches long and the same in circumference. Not bad, judge!

St. Mary's Hall Friday we rushed to the boy department and passed by saw an exhibit of hundreds of model automobiles, made by boys in America. Today we find "Dick" Marks, of Appomattox as entry in the contest, and "Honorable mention."

Dick will not undertake to report on Father Darkleaf with Mother Brightleaf's vacation there, other than to say we had a very enjoyable and educational trip. Everyone should visit the eight million people are in an area nine square than the area of Appomattox County. Yet one learns to love's way around in amazing ways and after a few days he is a native! We went to most of the most impressive spots, and saw shows. At the shows Lena Horne, Cab Calloway and Louis Armstrong, too.

We went to church Sunday: a not unfavorable comparison with our record at home. And we saw quite a few Lions Club's International men, too.

REV. G. E. HUGHES

The Rev. G. Edward Hughes announces that the Hebron Baptist Church will have revival services from August 2 through August 6, and the Spout Spring Baptist Church will hold revival services the following week, from August 9 through August 13. The services will begin each evening at 8:00 P. M. with a song service of old familiar gospel hymns.

Mr. Hughes will be the revival preacher. He is a native of Virginia and comes to Appomattox County from a field of churches in Loudoun County. He is a graduate of the University of Richmond and the Southern Baptist Theological Seminary at Louisville.

The public is cordially invited to attend the services.

Woodmen Circle Meets

The Woodman Circle met in the Masonic Hall July 26 for a short business meeting. Following the meeting a surprise handkerchief shower was given at the home of the president, Mrs. Ed Blackwell in honor of Mrs. Pearl Mitchell and Mrs. Christine Whitehead. Delicious refreshments were served. A guest of the Circle was Mrs. Jack Couch.

Fire Fan, 8, Hurled in Air By Water Stream From Hose

MEDFORD, MASS.—A small boy watching a fire at 17-19 Lawrence road was seriously hurt when a fire hose slipped off a hydrant and a powerful stream of water struck him in the chest, literally lifting him off his feet and hurling him under a parked car on the other side of the street.

Dana Whittemore, 8, son of Mr. and Mrs. Roger D. Whittemore of 133 Ashcroft road, was at Lawrence Memorial hospital with a brain concussion and a possible skull fracture.

Lynchburg at Appomattox to be played Tuesday, August 3.

Lee Theatre has now won three and lost none in the National Semi Pro Tournament for the State of Virginia, being played at Charlottesville. Tonight, the local team meets Staunton, of the Valley League.

The tournament may run through Saturday, and if so the scheduled game in Appomattox on Saturday night with Altavista will be postponed. Sunday, Lee Theatre plays at Crewe.

Thursday, August 5, Lee Theatre meets the Covington Westvaco club of the Old Dominion League here.

740 In Program

There are 740 farmers in Appomattox County participating in the Agricultural Conservation program. These farmers and millions like them cooperate in bringing conservation farming to all agricultural counties of the United States.

This comment came from John T. Hunter, chairman of the Appomattox County ACP Committee, who pointed out that the ACP actually blankets the entire country. Of the nation's 3,071 counties, there are 3,048 counties carrying out conservation practices administered by over 100,000 farmer-elected committeemen. Only 23 counties in the entire country are not in the program and these are non-agricultural counties, being mountainous mining areas, national parks, or metropolitan districts.

In 1947, the three million farmers participating in the ACP carried out a total of nearly five million conservation practices to save soil and water. These measures ranged from planting and plowing under an estimated 18 million acres of clover and green manure crops to constructing an estimated 90,000 stockwater and erosion control dams.

In 1947, under this program of the United States Department of Agriculture's Production and Marketing Administration, one or more conservation practices were performed on U. S. farms embracing nearly Two-thirds of the nation's cropland.

In Appomattox County the principal conservation practices were carried out by farmers in lime and phosphate materials.

County F. F. A. Boy Honored

Hugh Tanner, a member of the Appomattox F. F. A. Chapter has won first place in Virginia in the F. F. A. Foundation Farm Mechanics Award, and will receive the $100.00 offered by the Foundation as the most outstanding boy in Virginia in Farm Mechanics.

Hugh is 17 years old and the son of Mr. and Mrs. T. A. Tanner of the Stonewall neighborhood.

This award was based on his achievements in constructing repair and upkeep of farm buildings and machinery. His outstanding work in the local F. F .A. School Shop and his home farm shop were factors.

Some of his mechanical accomplishments are as follows: He has established a farm shop on his home farm, that is sufficient to take care of his repair needs. He has constructed and placed in this shop: emery wheel, drill press, work benches and tool cabinets. He has repaired practicall all of the mechanical equipment that will be found on a modern mechanized farm, such as cultipacker, saw mill, combine, tractor, manure spreader and mowing machine.

Hugh has developed a skill that has enabled him to service and operate mechanical equipment, and also keep it adjusted for efficient operation. His interest was developed not only on farm equipment but he has constructed, repaired and mechanized items in the home to make it more attractive and convenient to live in.

The F. F. A. Foundation was incorporated under the laws of the District of Columbia in 1944. The foundation was established to provide business, industrial, civic,farm and service organizations and individuals with an opportunity to cooperate in promoting the programs of the Future Farmers of America.

The Foundation annually provides on a nationwide basis awards to deserving members of the F. F. A. who have achieved distinction in their supervised farming program, scholarships, citizenship and rural leaderships.

Bids Asked On Mile of Hixburg Pamplin Road

The State Highway Department has called for bids to be received August 10 for hard surfacing the gap of almost one mile on Route 600 between Hixburg and Pamplin.

Proposed construction will grade the roadway to a uniform width, provide proper drainage, and surface with almost 4,000 tons of material. Officials said that if the new base and surface are sufficiently compacted before September 15, the roadway will be hard surfaced with bituminous material this year. If weather or other conditions delay compaction of the surface, however, it may be necessary to postpone bituminous treatment until the following spring.

A highway spokesman explained that new bituminous treatment on new bases often will not withstand severe winter weather, particularly if applied late in the year, resulting in expense of scarification and retreatment in a very short time.

DEATHS

MR. ROBERT C. BALDWIN

Robert Courtney Baldwin, 81, a well-known farmer, died at his home near Pamplin Sunday night at 8:15, after an illness of 3 weeks.

Besides his wife, Mrs. Mary Ferguson Baldwin, he is survived by the following children, Elmo Baldwin, and Witt Baldwin, of Pamplin; Hudson Baldwin, of Portsmount; Mrs. Marshall Buckman, of Prospect; Mrs. James Taylor, of Pamplin; Mrs. Oscar Gallier, of Lynchburg; Mrs. Berance Seay and Mrs. Royal Seay, of Richmond; one brother, Neal Baldwin, of Prince Edward County; and two sisters, Mrs. Mattie Case and Mrs. Betty Price, of Pamplin; thirty grandchildren and eight great - grandchildren.

Funeral services were held Tuesday afternoon at 2:00 o'clock, at Rocks Baptist Church, conducted by the Rev. Cecil G. Carter, assisted by the Rev. Carl A. Collins, Jr.

The following acted as pall-bearers: William Gallier, Jerry Gallier, Oscar Gallier, Jr., Jack Buckman, Arthur Buckman and Luther Gallier.

DEATH OF INFANT

Larry Winnard Godsey, the four-month old son of Mr. and Mrs. Carl D. Godsey, of Concord, died at the home of his parents Friday night at 7:30 o'clock. He is survived by his parents and one brother, Carl Wayne Godsey. Also surviving are his material grandparents, Mr. and Mrs. T. P. Kessee, of Concord Depot, and his paternal grandparents, Mr. and Mrs. Wiley W. Godsey, of Norfolk, Va.

Funeral services were held Sunday at the home at 3:30 P. M., conducted by the Rev. George E. Hughes, assisted by the Rev. J. W. Inge and the Rev. F. M. Lucas. Interment was in Concord Cemetery, at Concord.

At Blacksburg This Week

Mrs. F. F. Carr, County Federation Goal Leader, and Mrs. C. J. Hunter with Mrs. B. G. Anderson, Home Demonstration Agent, are attending the State Federation meeting and Institute of Rural Affairs being held at VPI, Blacksburg July 26 through 29.

COUNTY BOND SALES

As of July 17, Appomattox Co. had sales of $18,562.50 in the Federal Security Loan Drive. The quota for the county is $50,000.

HUNTER AT CONVENTION

C. Kendall Hunter is attending the International Convention of the Lions Clubs in New York, representing the Appomattox Club. He is expected to return tonight.

Democratic Primary Next Tues. August 3

Voters are urged to go to the polls next Tuesday, August 3, and cast their ballots in the Democratic primary election. The lone contest is for the party nomination for a six-year term for the United States Senate.

Senator A. Willis Robertson, incumbent, is being opposed by Hon. James P. Hart, Jr., of Roanoke.

Local party leaders are anxious for Appomattox County to make a good showing in this election and are appealing for a large vote. Senator Robertson is now serving out the unexpired term of the late Carter Glass.

Predictions are that Senator Robertson will easily carry the county.

Congressman W. M. Abbitt had no opposition in the primary but it is reported that the Republicans will offer a candidate in the November general election.

Work Begins On New Red Oak Church

Work began Tuesday this week on the new Red Oak Baptist Church at Oakville, which will replace the frame church building burned several months ago. The new church will be of red brick veneer over cinder block, and with furnishings will cost over $20,000.

Plans call for a 40 by 60 foot building, with a 300 seating capacity. Four Sunday School rooms are to be provided. Robert Mitchell is contractor. The church will be completed in six months.

Col. Coleman Heads Legion Post Here

Col. W. A. Coleman was elected Commander of Appomattox Post 104 of the American Legion at a picnic meeting held at Holiday Lake last Friday evening. About 150 were present for the occasion. Col. Coleman will succeed E. D. Tegethoff as Commander.

Other officers named were:

First Vice-Commander, Dr. S. S. Shouse

Second Vice-Commander, C. T. Moses, Jr.

Adjutant and finance officer, R. G. Janatka

Service Officer, C. K. Hunter

Sergeant-at-Arms, Robert Wooten

Chaplain, L. P. Brown

Historian, J. E. Peters

Membership Chairman, R. D. Robinson

Child Welfare, E. D. Tegethoff.

STORY HOUR AT COUNTY LIBRARY

The librarian of the Appomattox County Library announced today that story hour will be held each Monday afternoon at two-thirty o'clock in the county library. All boys and girls are invited to attend and to bring their friends.

Attend Camp At Holliday

Charles Harvey and Vernon Beasley will attend the 4-H Conservation Camp at Holliday Lake August 2 through 7. These boys have been chosen to represent Appomattox County and have been awarded scholarships by the State Club Department.
